

EXPECTATIONS

We stay connected to our patients, not just from visit to visit, but from birth through college. Dr. Hirsch is readily available by phone, pager, or e-mail so that your doctor is always within reach.

At Hirsch Pediatrics you can always expect:

- A solo practice where you see the same doctor at each visit and patients are treated like family.
- Appointments that focus on the patient and not on the clock.
- Comprehensive check-ups that fully evaluate your child's physical, emotional, and social development.
- Medical care that is based on cutting edge research and the most up-to-date information.
- No additional fees for school and camp forms, after-hour phone calls, record copies, etc.
- Timely completion of school and camp forms.
- Prescriptions that are instantly faxed to your pharmacy.
- The highest office standards for infection control.

Expecting the best for your child is your job, and meeting that expectation is ours!

TECHNOLOGY

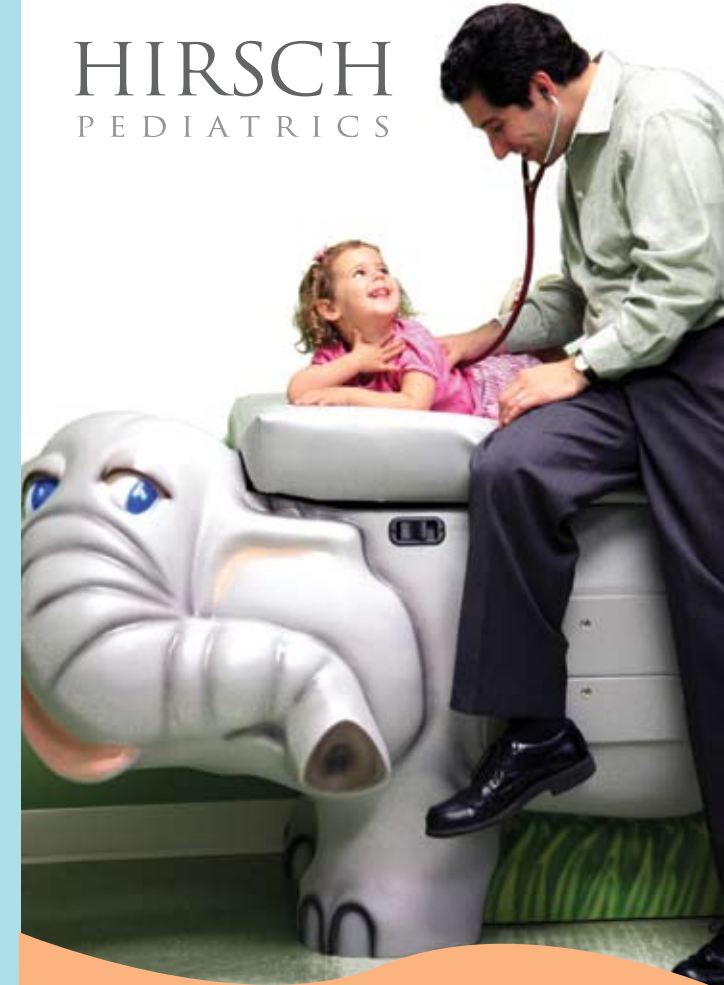

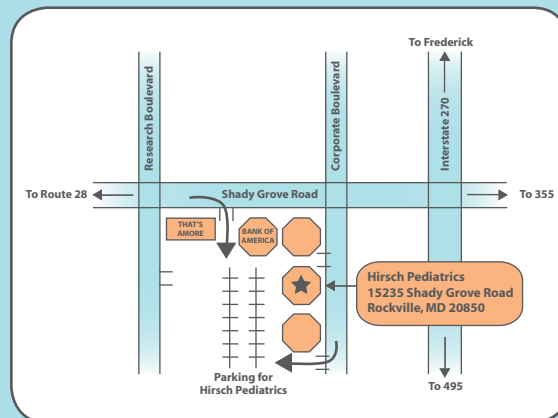

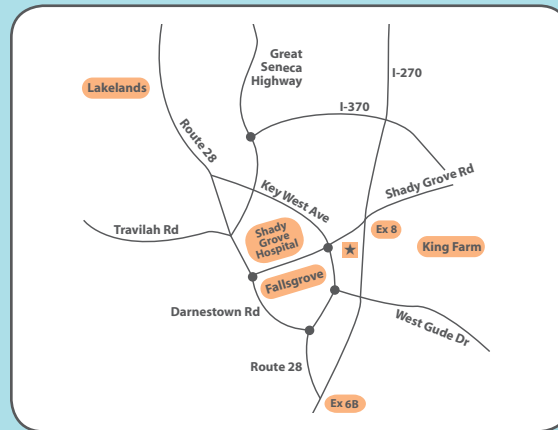

Hirsch Pediatrics proudly utilizes a customized, state-of-the-art electronic medical record (EMR) system to bring the highest level of care to our patients. Through our award winning website (www.HirschPediatrics.com), we also offer important parenting resources, e-patient services, and practice news.

LOCATION

Our office is conveniently located just 1 block from I-270 on Shady Grove Road. We are less than 1 mile from Shady Grove Adventist Hospital and the Fallsgrove Shopping Center. Parking for the building is free and readily available.

Next door there is a pharmacy, laboratory facilities, and walk-in radiology services for your convenience. If your child needs a referral for routine or urgent care, we are fortunate to work closely with a wide range of nearby, well-respected pediatric subspecialists.

For specific driving directions, please visit our website, www.HirschPediatrics.com.

BIOGRAPHY

Originally from the Washington, D.C. area, Dr. Hirsch received his undergraduate training from Duke University, graduating *magna cum laude* in 1996. Dr. Hirsch then attended Georgetown University School of Medicine where he graduated *cum laude*

in 2000. After completing his pediatric residency at Emory University, Dr. Hirsch worked both in private practice and as a clinical associate at the nationally renowned Children's Hospital in D.C.

VISION

Simply put, my vision for Hirsch Pediatrics is to offer families an outstanding level of pediatric care in a warm and welcoming environment. Hirsch Pediatrics was designed to redefine virtually every aspect of modern pediatrics including the doctor/patient relationship, the office setting, and patient/parent access to medical information.

When your child is not feeling well, visiting your doctor's office should relieve stress, not increase it. Part of successful care, to me, comes from creating a close relationship directly with my patient and his or her family. My office is an extension of my home—my patients extend my family.

Becoming your family's pediatrician is an honor, and I will always strive to provide the highest quality care possible in a nurturing environment.

I look forward to the opportunity to work with you. I believe that together, we can help your children thrive.

VIRTUAL VISIT

We have worked hard to redefine the atmosphere of the standard pediatrician's office. Standing under our awning at our open and spacious counter, you will always be greeted like an old friend.

To reduce the spread of infection we carefully disinfect each exam room between patients. We also offer individual toy buckets for each child (and siblings) to play with throughout the visit. Our proactive and innovative infection control policy reduces the chances of your child picking up an illness while visiting the office.

We invite you to take a peek at our unique exam rooms:

ZOO

Meet "Ellie" the elephant! Though the animals in our zoo are not in cages, I am confident they are safe and fun for your kids. Look out above for the cheetah, hanging monkeys, and snake!

FIRE STATION

Complete with fire hats, safety cones, ladder, fire hose, and a fire truck, our realistic "Rockville Fire District - Engine 1" will amaze your child.

LIBRARY

Not every child wants to visit a zoo or fire station when they need to see the doctor. The "Library" exam room is well suited for those adolescents who prefer a more mature setting.

There's still more to see, including our unique garden fountain and custom built pergola. Visit our website (www.HirschPediatrics.com) for more office photos on the expanded virtual tour!
