PLEASE ALERT A TEAM MEMBER BEFORE RECEIVING THE RSV VACCINE IF THERE ARE ANY "NO" ANSWERS TO THE QUESTIONS.		
Are you currently an established family or pre-registered (filled out new family form) with Hirsch Pediatrics?	YES	NO
Are you currently well today without any moderate or severe illness?	YES	NO
Are you currently 32 – 36 weeks pregnant in September 2025 through January 2026 and do not expect to deliver for at least 2 weeks?	YES	NO
Does your OB recommend that you receive the RSV vaccine today? (Please verify with your OB ahead of time if you are not sure.)	YES	NO
I have not received the RSV vaccine with a prior pregnancy. (CDC recommends not giving the RSV vaccine if it was already received in a prior pregnancy.)	YES	NO

**** SPECIAL MESSAGE ABOUT RSV VACCINE COST ****

We believe that most health insurances will continue to cover the cost of the RSV vaccine as an in-network benefit (possible deductible or co-pay may apply), and we will submit the insurance claim and appeal if denied. **However, if your insurance continues to deny payment we will bill your credit card on file \$395 which covers both the antibody cost (CPT 90678) and administration cost (CPT 90471 or 90460).**
